**GEORGIA-PACIFIC'S ANSWERS AND OBJECTIONS TO
DEFENDANT NCR CORPORATION'S SECOND SET OF INTERROGATORIES**

Plaintiffs Georgia-Pacific Consumer Products LP, Fort James Corporation, and Georgia-Pacific LLC (collectively “Georgia-Pacific”), by counsel, submit these objections and answers to the Second Set of Interrogatories from Defendant NCR Corporation (“NCR”).

General Objections and Limitations

The following General Objections apply to each of NCR’s interrogatories and shall have the same force and effect as if set forth in full in response to each.

1. Georgia-Pacific objects to the Instructions, Definitions, and each and every interrogatory to the extent that they improperly attempt to expand, alter, or modify the scope of permissible discovery under the Federal Rules of Civil Procedure and any other applicable rules.

2. Georgia-Pacific objects to the definition of “Georgia-Pacific,” “you,” and “your” in Definition No. 5 as overly broad and unduly burdensome and shall construe “Georgia-Pacific,” “you,” and “your” to mean the Plaintiffs and their predecessors.

3. Georgia-Pacific objects to the definition of "identify" in Definition No. 6 as overly broad and unduly burdensome and shall construe "identify" with respect to persons to mean living individuals, and to require the provision of the business address of the individual.

4. Georgia-Pacific objects to the definition of "identify" in Definition No. 7 as overly broad and unduly burdensome and shall construe "identify" with respect to documents to mean to give the bates number(s) or other identifying information for each document.

5. Georgia-Pacific objects to these interrogatories to the extent they are overly broad, unduly burdensome, and/or seeks irrelevant information or information that is not reasonably calculated to lead to the discovery of admissible evidence relating to the Liability Phase.

6. Georgia-Pacific objects to these interrogatories to the extent they are not reasonably limited in scope, rendering them overly broad and unduly burdensome, in that they seek, or may be construed to seek, (a) the production of "all" documents, testimony, or communications, for which a subset of all documents would be sufficient to show the pertinent information, (b) the identification of "all" persons who may have knowledge relating to pertinent information, for which a subset all persons would be sufficient to show the pertinent information.

7. Georgia-Pacific objects to these interrogatories on the grounds that they are premature to the extent that they seek information related to expert discovery. Georgia-Pacific will timely comply with the Case Management Order entered in this case as it relates to expert disclosures and will supplement its response to these interrogatories at that time.

8. Georgia-Pacific objects to NCR's interrogatories to the extent they seek the disclosure of information and/or documents protected from disclosure by the attorney-client privilege, the attorney work product doctrine, the mediation privilege, and/or any other available privilege or immunity. The inadvertent disclosure of any information or production of any

document that is confidential, privileged, was prepared in anticipation of litigation or for trial, or is otherwise irrelevant and/or immune from discovery shall not constitute a waiver of any such privilege or of any ground for objection to discovery with respect to such information or document, the subject matter of the information or document, or of Georgia-Pacific's right to object to the use of any such information or document in the above captioned proceeding or elsewhere.

9. Georgia-Pacific's decision to provide any response to an interrogatory, notwithstanding the objectionable nature of any of the interrogatories themselves, is not: (a) an acceptance of, or agreement with, any of the characterizations or purported descriptions of the transactions or events contained in the interrogatory; (b) a concession or admission that the material is relevant to this proceeding; (c) a waiver of the General Objections or the objections asserted in response to specific interrogatories; or (d) an agreement that interrogatories for similar information will be treated in a similar manner.

ANSWERS TO SECOND SET OF INTERROGATORIES

All General Objections are incorporated into each of Georgia-Pacific's responses, in addition to objections that are specific to particular paragraphs of the interrogatories.

1. Identify all persons with any knowledge about all response actions, removal actions, and/or remedial actions you have taken at the Site.

Answer:

Georgia-Pacific objects to this interrogatory on the grounds that it is unreasonably burdensome, not likely to lead to relevant information, and outside the scope of discovery permissible in Phase I of this case under the Court's Case Management Order, as there are potentially hundreds of people who have worked in varying capacities over more than three decades on matters related to response actions at the Kalamazoo site. By way of further response

Georgia-Pacific states that the names of many of these individuals and their employment affiliations are contained in the monthly, semi-annual, and annual reports, which bear production numbers KZ00121999 - KZ00128114, invoices which bear production numbers KZ00128115 - KZ00150530 , daily logs which bear production numbers KZ00099714 - KZ00118627 and KZ00150851 - KZ00153434, and in the Arcadis-US "public correspondence" file which is being made available for inspection and copying at the offices of Arcadis, U.S., Inc. located at 6723 Towpath Road, Syracuse, New York, 13214, Monday through Friday between the hours of 9 am and 5 pm through April 20, 2012.

Without waiving these objections, Georgia-Pacific states that the following individuals may have relevant knowledge of the various response actions taken at the Kalamazoo site:

Name	Address
Gary Griffith	Georgia Pacific 951 County Milan, MI 48160
Paul Montney	Georgia Pacific 297 Ferry Street Newark, NJ 07105
Michael Hassetts	Georgia Pacific 133 Peachtree St., NE Atlanta, GA 30303-1847
David Massengill	Georgia Pacific 133 Peachtree St., NE Atlanta, GA 30303-1847
Chase Fortenberry	Georgia Pacific 133 Peachtree St., NE Atlanta, GA 30303-1847
Roger "Chip" Hilarides	Georgia Pacific 133 Peachtree St., NE Atlanta, GA 30303-1847

Name	Address
Scott Cornelius	MDNR Project Manager, Superfund Section Constitution Hall, 3rd Floor South 525 W. Allegan St. P.O. Box 30426 Lansing, MI 48909-7926

Todd Goeks	National Oceanic and Atmospheric Administration Office of Response and Restoration 77 West Jackson Boulevard, SR-6J Chicago, IL 60604

2. For the costs and/or payments identified in Paragraphs 141, 142, 143(b), 153, 154, and 157(b) of your First Amended Complaint, state in detail the amount of each of the costs and/or payments you are seeking with this lawsuit, a description of each of the costs and/or payments that you have incurred at each OU and/or Site Facility, the date you incurred each of these costs and/or payments, and a description of each of these costs and/or payments. Include in your answer any costs and/or payments you are seeking with this lawsuit that do not correspond to any OU and/or Site Facility, as well as any costs and/or payments to government agencies for oversight activities.

Answer:

Georgia-Pacific objects to this interrogatory as being outside the scope of discovery permissible in Phase 1 of this action, as issues pertaining to the amount and recoverability of claimed costs have been reserved for trial in Phase II of this action.

Georgia-Pacific, without waiving this objection, notes that many of the documents it is producing for matters within the scope of discovery permissible in Phase I of this action describe costs incurred by Georgia-Pacific, and are sufficient to establish that costs have been incurred in connection with releases at the Site.

3. Describe in detail all response actions, removal actions, and/or remedial actions you have taken at OU1. In your answer, identify the date when you began each action and the date you completed each action.

Answer:

Georgia-Pacific objects to this interrogatory insofar as it calls for a description of each and every response action implemented either by Georgia-Pacific or related to OU1 on the grounds that it is unduly burdensome, as a “response action,” within the meaning of CERCLA includes a broad array of discrete or related investigations, evaluations and physical activities conducted at OU1. Georgia-Pacific further objects on the ground that the classification of a response action as being “removal” or “remedial” in nature calls for a conclusion of law.

Notwithstanding these objections, Georgia-Pacific responds by stating that the response actions,

and the dates of the response actions at OU1 are identified in documents which have been or are being produced to counsel for NCR as described below.

By way of further response, Georgia-Pacific notes that response actions at OU1 consist of complementary and interrelated measures to investigate and address the nature and extent of PCB contamination in the Kalamazoo River and related, nearby affected areas. With respect to OU1, these actions include those taken pursuant to:

- AOC dated December 28, 1990 (DFO-ERD-91-001), and amendments thereto which bear production numbers KZ00150531 - KZ00150631;
- AOC dated February 21, 2007 (No. V-W-07-C-864), which is publically available at <http://www.epa.gov/Region5/cleanup/kalproject/>.

The response actions taken pursuant to those agreements, along with other measures at OU1, and the time periods during which these actions were taken are described in the monthly, semi-annual and annual reports, which bear production numbers KZ00124647 - KZ00128114, invoices which bear production numbers KZ00128115 - KZ00150530 , daily logs which bear production numbers KZ00099714 - KZ00118627 and KZ00150851 - KZ00153434, and in the Arcadis-US “public correspondence” file which is being made available for inspection and copying at the offices of Arcadis, U.S., Inc. located at 6723 Towpath Road, Syracuse, New York, 13214, Monday through Friday between the hours of 9 am and 5 pm through April 20, 2012.

4. Describe in detail all response actions, removal actions, and/or remedial actions you have taken at OU2. In your answer, identify the date when you began each action and the date you completed each action, and the date you completed the most recent removal action in OU2.

Answer:

Georgia-Pacific objects to this interrogatory insofar as it calls for a description of each and every response action implemented either by Georgia-Pacific or related to OU2 on the grounds that it is unduly burdensome, as a “response action,” within the meaning of CERCLA

includes a broad array of discrete or related investigations, evaluations and physical activities conducted at OU2. Georgia-Pacific further objects on the ground that the classification of a response action as being “removal” or “remedial” in nature calls for a conclusion of law.

Notwithstanding these objections, Georgia-Pacific responds by stating that the response actions, and the dates of the response actions at OU2 are identified in documents which have been or are being produced to counsel for NCR as described below.

By way of further response, Georgia-Pacific notes that response actions at OU2 consist of complementary and interrelated measures to investigate and address the nature and extent of PCB contamination in the Kalamazoo River and related, nearby affected areas. With respect to OU2, these actions include those taken pursuant to:

- AOC dated December 28, 1990 (DFO-ERD-91-001), and amendments thereto which bear production numbers KZ00150531 - KZ00150631;
- Consent Decree dated September 30, 2009 between United States and Georgia-Pacific which is publically available on PACER with the Docket No.1-09-cv-429.

The response actions taken pursuant to those agreements, along with other measures at OU2, and the time periods during which these actions were taken are described in the monthly, semi-annual and annual reports, which bear production numbers KZ00124647 - KZ00128114 and KZ00124303 - KZ00124646, invoices which bear production numbers KZ00128115 - KZ00150530 , daily logs which bear production numbers KZ00099714 - KZ00118627 and KZ00150851 - KZ00153434, and in the Arcadis-US “public correspondence” file which is being made available for inspection and copying at the offices of Arcadis, U.S., Inc. located at 6723 Towpath Road, Syracuse, New York, 13214, Monday through Friday between the hours of 9 am and 5 pm through April 20, 2012.

5. Describe in detail all response actions, removal actions, and/or remedial actions you have taken at OU3. In your answer, identify the date when you began each action, the date you

completed each action, the date when the physical construction of the remedial action in OU3 commenced, and the current status of the OU3 remedial action.

Answer:

Georgia-Pacific objects to this interrogatory insofar as it calls for a description of each and every response action implemented either by Georgia-Pacific or related to OU3 on the grounds that it is unduly burdensome, as a “response action,” within the meaning of CERCLA includes a broad array of discrete or related investigations, evaluations and physical activities conducted at OU3. Georgia-Pacific further objects on the ground that the classification of a response action as being “removal” or “remedial” in nature calls for a conclusion of law. Notwithstanding these objections, Georgia-Pacific responds by stating that the response actions, and the dates of the response actions at OU3 are identified in documents which have been or are being produced to counsel for NCR as described below.

By way of further response, Georgia-Pacific notes that response actions at OU3 consist of complementary and interrelated measures to investigate and address the nature and extent of PCB contamination in the Kalamazoo River and related, nearby affected areas. With respect to OU3, these actions include those taken pursuant to:

- AOC dated February 8, 2000 (No. AOC ERD-99-010) which bears production numbers KZ00150743 - KZ00150850.

The response actions taken pursuant to this agreement, along with other measures at OU3, and the time periods during which these actions were taken are described in the monthly, semi-annual and annual reports, which bear production numbers KZ00124647 - KZ00128114, KZ00121999 - KZ00122502, KZ-00122793-KZ00122841, KZ00123264 - KZ00123306, and KZ00123495 - KZ00123552, KZ00123721 - KZ123823, invoices which bear production numbers KZ00128115 - KZ00150530 , daily logs which bear production numbers KZ00099714 - KZ00118627 and KZ00150851 - KZ00153434, and in the Arcadis-US “public correspondence”

file which is being made available for inspection and copying at the offices of Arcadis, U.S., Inc. located at 6723 Towpath Road, Syracuse, New York, 13214, Monday through Friday between the hours of 9 am and 5 pm through April 20, 2012.

6. Describe in detail all response actions, removal actions, and/or remedial actions you have taken at OU4. In your answer, identify the date when you began each action and the date you completed each action.

Answer:

Georgia-Pacific has not undertaken response actions at OU4, and understands that the USEPA, MDNR and Weyerhaeuser have undertaken response actions at OU4.

7. Describe in detail all response actions, removal actions, and/or remedial actions you have taken at OU5. In your answer, identify the date when you began each action and the date you completed each action.

Answer:

Georgia-Pacific objects to this interrogatory insofar as it calls for a description of each and every response action implemented either by Georgia-Pacific or related to OU5 on the grounds that it is unduly burdensome, as a “response action,” within the meaning of CERCLA includes a broad array of discrete or related investigations, evaluations and physical activities conducted at OU5. Georgia-Pacific further objects on the ground that the classification of a response action as being “removal” or “remedial” in nature calls for a conclusion of law.

Notwithstanding these objections, Georgia-Pacific responds by stating that the response actions, and the dates of the response actions at OU5 are identified in documents which have been or are being produced to counsel for NCR as described below.

By way of further response, Georgia-Pacific notes that response actions at OU5 consist of complementary and interrelated measures to investigate and address the nature and extent of PCB contamination in the Kalamazoo River and related, nearby affected areas. With respect to OU5, these actions include those taken pursuant to:

- AOC dated December 28, 1990 (DFO-ERD-91-001), and amendments thereto which bear production numbers KZ00150531 - KZ00150631;
- AOC dated February 21, 2007 (No. V-W-07-C-864) which is publically available at http://www.michigan.gov/documents/deq/deq-rrd-ce-FY09enforcementdocs_274186_7.pdf;
- AOC dated February 21, 2007 (No. V-W-07-C-863) which is publically available at <http://www.epa.gov/Region5/cleanup/kalproject/>;
- January 30, 2008 Modification to AOC (AOC-RRD-08-001) which is publically available at http://www.michigan.gov/documents/deq/deq-rrd-ce-FY09enforcementdocs_274186_7.pdf; and
- AOC dated June 8, 2009 (No. V-W-09-C-925), which is publically available at <http://www.epa.gov/Region5/cleanup/kalproject/>.

The response actions taken pursuant to those agreements, along with other measures at OU5, and the time periods during which these actions were taken are described in the monthly, semi-annual and annual reports, which bear production numbers KZ00124647 - KZ00128114, KZ00122503-KZ00122795, KZ00122842 - KZ00123263, KZ00123307 - KZ00123494, KZ000123553 - KZ00123720, and KZ00123997 - KZ001, invoices which bear production numbers KZ00128115 - KZ00150530 , daily logs which bear production numbers KZ00099714 - KZ00118627 and KZ00150851 - KZ00153434, and in the Arcadis-US “public correspondence” file which is being made available for inspection and copying at the offices of Arcadis, U.S., Inc. located at 6723 Towpath Road, Syracuse, New York, 13214, Monday through Friday between the hours of 9 am and 5 pm through April 20, 2012.

8. Describe in detail all response actions, removal actions, and/or remedial actions you have taken at OU7. In your answer, identify the date when you began each action and the date you completed each action.

Answer:

Georgia-Pacific has not undertaken response actions at OU7, and understands that the USEPA, MDNR and Weyerhaeuser have undertaken response actions at OU7.

9. Describe in detail all response actions, removal actions, and/or remedial actions you have taken at any Site Facility, other than those described in responses to prior interrogatories herein. In your answer, identify the date when you began each action and the date you completed each action.

Answer:

Georgia-Pacific objects to this interrogatory insofar as it calls for a description of each and every response action implemented either by Georgia-Pacific or related to Site Facilities other than those described above on the grounds that it is unduly burdensome, as a “response action,” within the meaning of CERCLA includes a broad array of discrete or related investigations, evaluations and physical activities conducted at those Facilities. Georgia-Pacific further objects on the ground that the classification of a response action as being “removal” or “remedial” in nature calls for a conclusion of law. Notwithstanding these objections, Georgia-Pacific responds by stating that the response actions, and the dates of the response actions at Site Facilities other than those described above are described in documents as described below.

By way of further response, Georgia-Pacific notes that these response actions consist of complementary and interrelated measures to investigate and address the nature and extent of PCB contamination in the Kalamazoo River and related, nearby affected areas. With respect to these response actions, actions include those taken pursuant to:

- AOC dated December 28, 1990 (DFO-ERD-91-001), and amendments thereto which bear production numbers KZ00150531 - KZ00150631;
- AOC dated February 21, 2007 (No. V-W-07-C-864) which is publically available at http://www.michigan.gov/documents/deq/deq-rrd-ce-FY09enforcementdocs_274186_7.pdf

The response actions taken pursuant to those agreements, along with other measures, together with descriptions of the time periods during which these actions were taken are described in the monthly, semi-annual and annual reports, which bear production numbers KZ00124647 - KZ00128114

, invoices which bear production numbers KZ00128115 - KZ00150530 , daily logs which bear production numbers KZ00099714 - KZ00118627 and KZ00150851 - KZ00153434, and in the Arcadis-US “public correspondence” file which is being made available for inspection and copying at the offices of Arcadis, U.S., Inc. located at 6723 Towpath Road, Syracuse, New York, 13214, Monday through Friday between the hours of 9 am and 5 pm through April 20, 2012.

10. If you contend that NCR is liable for any costs you have incurred related to OU3, state the amount of such costs and identify all facts, witnesses, or documents that support that contention.

Answer:

Georgia-Pacific objects to this interrogatory as being outside the scope of discovery permissible in Phase 1 of this action, as issues pertaining to the amount and recoverability of claimed costs have been reserved for trial in Phase II of this action. Georgia-Pacific, without waiving this objection, notes that many of the documents it is producing for matters within the scope of discovery permissible in Phase I of this action describe costs incurred by Georgia-Pacific, and are sufficient to establish that costs have been incurred in connection with releases at the Site. Georgia-Pacific further objects on the ground that it has already disclosed documents and information in response to other discovery requests and in its Initial Disclosures that identify the facts, witnesses and documents that support its liability claims against NCR.

11. Describe in detail all response actions, removal actions, and/or remedial actions you have taken within OU2 that pre-date the U.S. Environmental Protection Agency’s Record of Decision for OU2 (September 27, 2006).

Answer:

Georgia-Pacific objects to this interrogatory insofar as it calls for a description of each and every response action implemented either by Georgia-Pacific or related to OU2 on the grounds that it is unduly burdensome, as a “response action,” within the meaning of CERCLA includes a broad array of discrete or related investigations, evaluations and physical activities

conducted at OU2. Georgia-Pacific further objects on the ground that the classification of a response action as being “removal” or “remedial” in nature calls for a conclusion of law. Notwithstanding these objections, Georgia-Pacific responds by stating that the response actions, and the dates of the response actions, at OU2 that pre-date the U.S. Environmental Protection Agency’s Record of Decision for OU2 (September 27, 2006) are identified in documents which have been or are being produced to counsel for NCR and bear production numbers KZ00150531 - KZ00150631, KZ00124647 - KZ00128114, KZ00124303 - KZ00124646, KZ00128115 - KZ00150530, KZ00099714 - KZ00118627 and KZ00150851 - KZ00153434.

12. For each response to a Request to Admit (served on you with these Interrogatories) which is not an unqualified admission, identify all facts, witnesses, or documents which form the basis for the denial or qualification and identify all persons with knowledge of the basis for the denial or qualification.

Answer:

The basis of each response to a Request to Admit that is not an unqualified admission is stated in the response to the Request. The facts, witnesses, and documents in support of the response are to be found in the monthly, semi-annual and annual progress reports (which bear production numbers KZ00121999 - KZ00124646), invoices which bear production numbers KZ00128115 - KZ00150530 , daily logs which bear production numbers KZ00099714 - KZ00118627 and KZ00150851 - KZ00153434, and in the Arcadis-US “public correspondence” file which is being made available for inspection and copying at the offices of Arcadis, U.S., Inc. located at 6723 Towpath Road, Syracuse, New York, 13214, Monday through Friday between the hours of 9 am and 5 pm through April 20, 2012.
